// CONTACT

Birthday: 26/04/1992

Phone: +49 1573 1096 248

Email: kathy.thuylinhnguyen@gmail.com

Address: 60311, Frankfurt am Main

// MY EXPERIENCE

2020-jetzt : Freelancer - So far, I have successfully created numerous websites for small businesses and restaurants, fulfilling all of my clients' requests to their satisfaction.

1/2020-11/2021: Hung Thinh Corporation-Ho Chi Minh City - As the person in charge of the corporation's websites, my responsibilities include updating information on a regular basis, conducting maintenance to address bugs, and implementing new functions as required. <https://hungthinhcorp.com.vn/>

// EXAMPLE APPS

Bingo-game: <https://bingo-game-nu.vercel.app/>

-Playing Bingo is fun. For the development of this app, I used React JS. There are many options available to choose from the theme you want to play with.

E-commerce app: <https://emart-react.vercel.app/>

-This app is using React, React Redux. It is a e-commerce app about latest fashion, you can check the style, add to cart and also purchase products.

Save favourite youtube videos app : bit.ly/3iceUVz

-This application can help you storing list of favourites videos on Youtube just by simply adding a link, delete it or access it later, datas storing by local storage. Using HTML, CSS and Javascript.

You can check out my personal Website here to see more projects :

// EDUCATION

Self teaching Web development 2019 - present

FRONT END DEVELOPMENT

Open University, Ho Chi Minh City / 2010 -2015

BACHELOR OF CIVIL ENGINEERING

LINH NGUYEN

Front end Developer

// MORE ABOUT ME
// AND MY EDUCATION
// STORY

Hello! I have two years of experience as a front-end developer at one of the largest companies in Vietnam, as well as several years of freelance experience. Currently, I live in Frankfurt am Main, Germany. Besides programming and development, I enjoy traveling and cooking.

I chose a career in web development to follow my passion and do what I really love. My journey began when my sister opened a cafe and I created a simple website for her using HTML and CSS. The website helped attract customers, and other nearby businesses asked me to create websites for them as well. This sparked my interest in web development, and I have been on my learning journey ever since.

I believe my ability to learn quickly and my passion for learning are my greatest strengths. Although I don't have a degree in computer science, I follow a self-created roadmap that is similar to a computer science curriculum. My background in civil engineering has taught me important skills like math, physics, programming, and problem-solving, which are also relevant to the field of computer science. In my opinion, it's more important to know how to learn and love learning new things than to fill a shelf with certificates.

Although I am still in the early stages of my career, I have a positive attitude and am confident that I will soon be a great developer.

I hope to bring my enthusiasm and passion for web development to your company in a beneficial way. If it doesn't work out this time, I am willing to continue learning and gaining more experience and try again at a later time. Thank you for taking the time to read my cover letter. I look forward to the possibility of working with you in the future.
